Extract from the letter dated 14-3-48 from Mr A John Hendry Member, Mysore Legislative Council addressed to the Minister for Public Health

1) " I was in view of my recent speech in Council last session, pleased to read of the report of your recent inspection of certain hotels and restaurants in Bangalore city.

2) In this connection may I enquire whether there is now a medical inspection of hotel staffs particularly those relating to the kitchen, in order that those suffering from Venereal and other objectional diseases are not employed I understand even in a high class hotel, such as the above no such inspection is ordered

3) Also it would be as well if certain objectional practises as that of the Cooks

having tested food for flavouring and then pouring back the rest of the contents of the sample back into the Cauldron be discouraged and some elementary knowledge of hygiene be inculcated upon"
